# HMIS

## What Is HMIS?

The Homeless Management Information System (HMIS) is a web-based information system. Agencies that serve homeless and at-risk individuals in Orange County need to compile information about the persons they serve.

## Why Gather and Maintain Data?

HMIS will gather and maintain unduplicated statistics on a regional level to provide a more accurate picture of our region's homeless and at-risk population. HMIS will also help us understand client needs, help agencies plan appropriate resources for the clients they serve, inform public policy in an attempt to end homelessness, streamline and coordinate services and intake procedures to save client's valuable time, and so much more.

## Consent

### Written Client Consent

Each client must complete a Client Consent Form allowing release of demographic information to the HMIS. Clients will be required to complete a signed form to be kept on file with the service provider. A copy will be provided to the client.
