LEADING THE FIGHT TO END HUNGER AND HOMELESSNESS IN ORANGE COUNTY

South County Outreach (SCO) serves homeless families, the underemployed, unemployed, seniors, veterans and other vulnerable residents at risk of hunger and homelessness in south Orange County, CA. We envision an Orange County community where no one goes to bed hungry or without a place to call home. South County Outreach's services include a robust food program, homeless prevention assistance in the forms of rental and utility payments, and a financial educational component to further help our clients achieve and maintain self-sufficiency.

- Our food program, known as The Market, distributes nearly one million pounds of non-perishable and fresh food to an average of 6,000 individuals annually.
- Homeless Prevention Services provide subsidized housing and professional case management services to local families with minor children who are homeless or on the verge of imminent homelessness so that they may get back on their feet.
- Educational program helps clients grow their professional skills and obtain a single job/career that provides a living wage.

Food pantry volunteers are all smiles at South County Outreach.

Volunteer, donate, attend an event or host a food drive.
